

A NEW WAY TO DOMINATE WITH MYSTIK® PRODUCTS

*From long haul to
regional or city transport,
we've got you covered
no matter where you drive.
From desert to snow
and everything in-between.*

Mystik®
LUBRICANTS

EXTEND SERVICE LIFE. CONSOLIDATE GREASES. SAVE MONEY... NOW THAT'S LUBRICATION DOMINATION!

Mystik® JT-6® Super Heavy Duty 460 Grease is a specially formulated, high performance grease for the heavy-duty trucking industry. This synthetic-blend formula is engineered to deliver extended service intervals beyond those of conventional greases and to provide pumpability over a wide temperature range. One product for lubricating fifth wheels, kingpins, throw-out bearings, pins and bushing, U-joints, and more. This grease protects your heavy-duty equipment under the harshest of conditions, including shock loading and exposure to corrosive anti-icing agents. Mystik JT-6 Super Heavy Duty 460 Grease can also be used for industrial bearings as well as agricultural, construction, and off-highway equipment.

FEATURES

- Proprietary stay-in-place formula extends service life
- Maximum wear protection and heavy load-carrying capacity
- Water resistant; protects against corrosion
- Wide operating temperature range of -5°F to 350°F
- NLGI #2 grease

COST SAVINGS BENEFITS

- Extend service life up to three times
- Reduce inventory with single solution grease
- Minimizes misapplication

Convenient On-the-Go 10-oz. Squeeze Tube

- No-mess resealable and portable squeeze tube for fifth wheel application
- No grease gun required for application
- No grease pouch left behind

Material Codes and Packaging:

- 665087002020 400-lb. Lined Drum
- 665087002072 120-lb. Lined Keg
- 665087002044 35-lb. Pail
- 665087002080 50/14-oz. Tube Case
- 665087002068 12/10-oz. Squeeze Tube Case
